School personnel will not accept gratuities of any type from vendors or potential vendors desiring to do business with Madison School district #321. If gratuities are part of the vendor's business practices, the vendor will be encouraged to provide price discounts in lieu of gratuities.

This rule does not preclude the furnishing of free identification pictures for student cumulative records and/or student body cards in connection with taking student pictures, nor does it preclude teachers receiving a picture package as remuneration for involvement in the organization and supervision required for picture taking.
