

Safety Busing

In some cases, the District will provide transportation for students living less than 1-1/2 miles from a school when it is determined and rated that the pupil's age, health or safety warrants such transportation. The District uses a rating system for each area of Safety Busing. All areas will be rated once every three years. Any area rating 50 points or above, will be evaluated for Safety Busing.

All Kindergartens are approved for Safety Busing because of the age of the students. Annually, the Board will approve all bus routes and the approval will include the reasons for granting transportation within the 1-1/2 mile radius of a school. Safety Busing documents will be submitted annually to the State Department of Education for reimbursements.

The District's rating system is also used for new area bus routing that is less than 1-1/2 miles from a main road.
